DX70 Secure Phone Case

LiteScape

The CyberData DX70 Secure Phone Case takes a Cisco DX70 and protects it from damage. The DX70 is housed in a steel enclosure with security screws holding down the stainless steel front cover. The screen protector is replaceable Acrylic. The handset and cord cable are designed for demanding environments.

When the optional SPAR2 controller is installed, Biometric and RFID authentication is available. The SPAR2 controller incorporates an 802.3at 3 port gigabit switch for a single PoE connection to the unit.
